

To whom it may concern,

I am adamantly opposed to SB 184 and HB 5262. This bill is completely ridiculous and has no safeguards to have an honest election. We have been using absentee ballots legally for many years. This is a clear attempt to mass mail and get cheap votes with no way of ensuring integrity. It's actually gross this is even proposed. If lots of people can show up to a Super Bowl (unmasked) they will be just fine to write on a ballot in person. This honestly is disgusting. Anyone proposing this should be ashamed and this is clear violation of the constitution. We vote absentee for our illness not someone else's.

Thank you,

Dr matt cucolo
